This consultative report relied heavily on participatory approach of West Pokot county planning unit, Masol Ward leaders, Masol Ward community and Non-Governmental Organization operating within the county who contributed their time in field consultative meeting with the community. We are extremely grateful to CEC-Finance and Economic Planning Mr.Joel Ngolekong, Head of planning, Mr. Kennedy Tegeret, Head of Budget Mrs.Pricila Mungo for their, input, guidance and their continued support throughout the entire Masol ward community consultative forums.

We are very grateful to Masol Ward community, the area MCA Hon.Pyatich Loporna, MPDI Board Chairman Mr. Peter Lochakapong, all Chiefs Masol ward , for their invaluable input and their active part in planning and mobilizing community to attend the consultative forums.

The technical departments and development partners had important guidance role to the participatory appraisal process in the field. We are particularly grateful to the Technical officers from Agriculture, Education and Health from Pokot central Sub-county, the development partners, KWS,ADS, Red cross, KVDA and CDF representative who provided guidance and inputs to the process.

The County Planning Unit provided leadership, guidance and coordination in panning Masol Ward community consultative forums. We are grateful to the invaluable technical input, leadership and support of county planning unit staff; Mr. Isaac Ritakou (Team leader) and Mr. Biegon Benard.

JACKSON PENG'AT

MIP	Masol Integrated Project
PRA	Participatory Rural Appraisal
SIR	Social Intelligence Reporting
MPDI	Masol Peace and Development Initiative

MASOL COMMUNITY CONSULTATIVE MEETING REPORT

1.0 INTRODUCTION

1.1 Background

Masol ward lies under the category of the most marginalized areas in West Pokot County and in Kenya. The ward has two (2) locations and six (6) Sub-locations with a population of 14, 744 residents (KNBS Census, 2009) and covers an area of approximately 771.2 KM^2. It boarders, Weiwei, Sekerr and Lomut Wards in Pokot Central Sub-County and Turkana south. The ward is bounded by river Wei-wei on the west and Kerio on the east. The topography of the land is fairly flat which covers most of the ward. There are hills like Masol hills which receives low rainfall that serves the community during dry season.

The county government of West Pokot County acknowledges people's participation in decision making as a key ingredient in poverty reduction and tackling regional inequalities. Through participation, people can articulate priorities of projects that can be implemented based on their felt needs. In furtherance of this purpose, the consultative meetings sought to engage Masol community in planning and designing of the feasibility study of the Masol Integrated Project (MIP) proposed by the County Government of West Pokot County.

1.2 Objectives of participatory public consultative forum

a) To identify and learn about the socio-economic needs and problems faced by the Masol community.
b) To determine the existing resource opportunities within Masol ward.
c) To share and document the successes stories and challenges of previous projects initiated within Masol ward.
d) To identify, develop and prioritize interventions for Masol community socio-economic empowerment to enhance peaceful coexistence, improved livelihoods and build resilience on climate change.
e) To develop an integrated development implementation action plan for top priority development strategies to alleviate poverty and promote gender equality in Masol ward.

1.3 Rationale for the Masol Integrated Project Approach

The Bill of Rights is an integral part of Kenya's democratic state and is the framework for social, economic and cultural policies. The purpose of recognizing and protecting human rights and fundamental freedoms is to preserve the dignity of individuals' and communities and to promote social justice and the realization of the potential of all human beings.

County Government Act 2012 Article 97(e) mandates county to have special measures of affirmative action for marginalized and minority groups to ensure their enjoyment of equal right with the rest of the population.

A relative comparison of Masol ward with other wards in the county indicates that it previously experienced less investment both in human and infrastructure development. Owing to this, the county government has proposed an integrated approach of development in the ward through the ***Masol Integrated Project***. This integrated approach ensures the harmonization of different community social needs, implementation of a 'one stop shop packet of' community driven priority development projects and programmes aimed at fast racking the realization of Millennium Development goals and targets in the area and county at large. The constitution of Kenya promises equitable society with protection to social and economic rights to all Kenyans, to give effect to equity, West Pokot County government, has proposed Masol Integrated Project to influence both economic and social development in Masol ward.

1.4 Linkage between Masol Integrated Project with CIDP.

Masol integrated project is a county priority identified in CIDP to alleviate poverty in Masol ward. The Vision of the County Government of West Pokot through the implementation of CIDP is to build a just, equitable and secure county with a high quality of life for its people. This will be achieved through development that address the past historical injustices and marginalization spearheaded by past national economic and social policies. This is possible only when a government acknowledges and realizes the need to provide basic services including water, roads, health facilities and electricity to marginalized areas to the extent necessary to bring the quality of those services in those areas to the level generally enjoyed by the rest of the county. The Masol Integrated Project aims at achieving this over a span of four years.

1.5 Meeting Organization and Participants

The meeting was organized by the West Pokot County Planning Unit. The participants were as follows;

- CEC-Finance and Economic Planning
- Chief Officer- Finance and Economic Planning
- Head of Budget
- County Planning Unit Staff
- Masol Leaders
- Ministry of Health
- Ministry of Agriculture
- Ministry of Education
- Department of Wildlife
- Development partners
- Masol Community

1.6 Stakeholders Analysis

NAME	ROLE AND RESPONSIBILITY IN MASOL WARD
DRSLP	Putting up a subsurface dam at Muchukwo-surveys completed Water pan design stage
KVDA	Support agricultural farming
Red Cross	Maternal and Neonatal Child Health (MNCH), WATSAN, Piped water from Lomut River intake,
ACF	Nutrition, Mother-to-Mother support group, Men support group at Simbol, Active case finding by CHWs
Acted	Camel project and Pastorals field schools at Nyangaita, stalled Irrigation project using diesel generators at Akiriamet

CaBeSi	Bee Keeping, bee keeping projects at Nyangaita, Amoler and Honey collection centre at Chirkil. To establish another collection centre within Masol Ward in the year 2015
Christian Missionaries	• Anglican Development Services (ADS)- Capacity Building, Dairy goat farming, Community Based Health Financing (CBHF) • Lutheran- spiritual, construction of schools, scholarships, • Catholic- spiritual, construction of schools, provision of learning materials and equipment • AIC- spiritual, construction of schools, provision of learning materials
Health	• Disease prevention, immunization, ANC services, Growth monitoring and promotion of under 5yrs, IMAM (nutrition) services, train health care personnel, formation and establishment of CHWs units, train CHWs volunteers, health education, employment of health personnel • Curative services- treatment and management of illness • Health infrastructure- construction of health facilities
CDF	Provision of bursaries, Construction of schools, health centers and infrastructural development
KWS	Wildlife conservation, Corporate Social Responsibility (CSR)
NRT	Support community wildlife conservancies, Peace efforts and improving livelihoods
ASDSP	Supporting Agriculture and livestock initiatives, capacity building of farmers
NDMA	Drought management and provision of the early warning system

2.0 METHODOLOGY/TOOLS USED IN THE ASSESSMENT

2.1 Introduction

Participants for needs assessment in Masol ward were drawn from both the community, non-governmental organization operating in the county, line county ministries and staff from county planning unit. Two public consultative forums were organized at Nyangaita and Tikit on 10th and 11th December 2014 respectively, after consultative meeting with Masol ward leaders held on 1st December 2014 at ELCK Bible Centre.

The assessment was conducted through consultative community meetings (Participatory Rural appraisal).Participatory Rural Appraisal (PRA) is an approach and method for learning about rural life and conditions from, and by the rural people. The processes involved were interactive, innovative, informal and done inside the community. The steps taken to collect the data were; focus groups' discussions, observations, individual interviews and review and compilation of existing data. The tools used to record the data were the use of videos, photograph and note taking.

Focus group discussion at Tikit

2.2 Strength and Limitations

The assessment was successful since the community attended in large numbers and freely contributed to the discussions. The people came from all sub-locations within Masol ward which allowed them to agree and reach at the resolutions for the proposed MIP.

Although the meeting was well attended, most of the participants were illiterate and less informed. Cultural issues also limited them from free contribution where women and children were less involved. The number of participants was high which made it hard to get information from everyone.

2.3 Gender Analysis and Participation

The Masol consultative forum meetings held at Nyang'aita and Tikit meetings were well attended by the community members. The attendance by men and women was 57% and 42% respectively at Nyang'aita, and 49% and 51% respectively at Tikit. The representation of the youth was minimal.

Both men and women contributed to the issues under discussion. At the group discussion level, both men and women gave their opinions. Gender roles and responsibilities assigned to men, women and the youth in a given community are of importance in the contribution of development in an area. Having noted that the participation of youth was wanting, the community needs to encourage more youth to attend public participation forums to ensure their needs are integrated into county development policies and plans.

3.0 KEY SUMMARY FINDINGS AND RECOMMENDATIONS

3.1 Introduction

This section provides the results from the focus group discussions held during the two consultative meetings held at Nyangaita and Tikit**.**

3.2 NEEDS BY SECTORS:

3.2.1 Education Sector

SECTOR	CHALLENGES	HOW THE ISSUES CAN BE ADDRESSED	PRIORITIES
Education (*Primary-Lokarkar, Akiriamet, ECD-Simbol, Akiriamet, Kakorosin*)	• Water • Insecurity • High school fees • Low number of teachers • Early marriages • Migration/movement of livestock • Inaccessibility • Low standard • Hunger • Long distance • Ignorance • Lack of classrooms	• Financial support • Provision of Water and food • Construction of Boarding schools (*Lokarkar)* • Mobile teaching/schools • Anti-FGM campaign • Drilling of borehole • Irrigation schemes • Police post at the Turkana boarder • Construction of	• Construction and equipping of more schools especially boarding schools • Provision of water and food • Recruiting of more teachers • Provision of power to schools

		more schools(*Kachenguya, Ghatoyo, Cheporomwagh*, *Kaisa, Chepaiywat, Katukumwok, Nakipetot, Lotongot*) • Rehabilitation of Lokarkar and Amolem irrigation schemes	

3.2.2 **Water Sector**

SECTOR	CHALLENGES	HOW THE ISSUES CAN BE ADDRESSED	PRIORITIES
Water (*Borehole*; *Lokarkar,Kaisa,Chepaywat. Sand Dam; Kachanguya, Dams; Simbol,Chpserum, Lomortam,Chemuro, Lokisiakona, Cheparkuloi,Chemakonge*	• Scarcity of water • Few boreholes • Seasonal rivers • Long Distance (10-	• Construction of more borehole (*Samakituk,Simbol, Ghatoi, Loywenyang, Kachanguya, Kaitapos, Akiriamet,Che*	• Drilling of Boreholes and installing solar power • Connection of Piped water • Construction of Dams and shallow wells

n, Kopo Torit, Amolem, Kotul- Pogh, Ketiyam, Rorok, Cheptamas)	20KM) • Water borne diseases • Drying up of water pans • Poor maintenance of water equipment • Unsafe drinking water • Poor sitting of sand dams • Shallow wells	*poro-mwagh, Katolomwo, Chepkokoch, Kangotut, Kalikwon, Cheparkuloi, Lotongot, Kakorostin, Nakipetot, Kama Naro, Lokarkar, Amolem, Katangun, Lorach)* • Construction of dams (*Katangun, Chemworokoi, Kopiriron, Napurte, Chemwotiny, Oron, Mongorion, Arur, Kapunia*) • Piped water • Sand dams with solar power (*Arur, Lomortom,*	

		Kalikwon, Kaisa, Lotongot) • Treatment of water	

Mother and daughter pump water for goats to drink at Nyangaita

3.2.3 **Agriculture Sector**

SECTOR	CHALLENGES	HOW THE ISSUES CAN BE ADDRESSED	PRIORITIES
Agriculture (*green gams, millet, sorghum, tomatoes, sukuma wiki, water melons, maize , beans and others***)**	• Drought • Lack of proper seeds • Inadequate rainfall • Dry land • Lack of irrigation schemes • Inadequate agricultural staff • Lack of farm tools • Destruction from wild animals • Poor preparation of land • Lack of markets	• Establish irrigation schemes • Provide adequate agriculture staff • Certified seeds • Ploughing machines • Drought resistance crops • Training of farmers • Educational tours for farmers	• Having certified seeds • Establishment of irrigation schemes • Promotion of drought resistant crops (millet, sorghum, green grams, water Mellon) • Promotion of enclosed pasture farms • Establish agricultural demonstration plots

3.2.4 Livestock sector

SECTOR	CHALLENGES	HOW THE ISSUES CAN BE ADDRESSED	PRIORITIES
Livestock (*cattle, sheep, goats, camels, donkeys, chickens)*	• Animal diseases • Lack of veterinary • Lack of water • Lack of cattle dips • Poor consultations community • Inadequate pastures • Cattle rustling • Low market • Long distance to the market • Tsetse fly	• Construction of cattle dips • Sand dams • Sell yard • Upgrading of local livestock • Establishment of fodder and pasture • Provision of veterinary services • Introduction of Auction Markets for Livestock	• Construction of Cattle dips • Provision of veterinary services • Promotion of improved drought resistant breeds • Introduction of Auction Markets for Livestock

3.2.5 Health and sanitation

SECTOR	CHALLENGES	HOW THE ISSUES CAN BE ADDRESSED	PRIORITIES
Health and sanitation *(Kaitapos, Simbol, Takaiywa, Nyangaita, Moi Masol,)*	• Inadequate staff • Lack of maternity services • Lack of ambulance • Unclean water • Shortage of drugs • Long distance to the nearest health facility • Nomadic lifestyle • Insecurity • Expensive to hire vehicles • No pit latrines in the community homesteads due cultural believes • High malnutrition and maternal cases	• Hiring of more staff • Construction of maternity facilities • Need for ambulance • Construction of more health facilities (*Simbol, Kaitapos, Akiriamet, Kaisa, Amolem, and Chepaywat and a health centre at Srumben*) • Water treatment • Completion of on-going construction of health facilities at Tikit, Simbol and Takaiywa • Mobile medical and Nutritional services • Construction and promotion of pit latrines • Establish police post • Introduce nutritional food supplement	• Introduce nutritional food supplement to malnourished children and mothers • Construct and equip maternity dispensary • posting of more medical staff to medical facilities in the ward • Maternity services • Ambulance • Construct more health centers

3.2.6 Infrastructure

SECTOR	CHALLENGES	HOW THE ISSUES CAN BE ADDRESSED	PRIORITIES
Infrastructure (*WeiWie-Lotongot, Takaiywa-Amolem, Chepseru-Chepaiywat*)	• Lack of bridges • Inaccessible roads • Poor maintenance of roads and bridges • Floods • Bushes • Lack of technical surveyors • Lack of electricity	• Construction of bridges at (*Akiriamet,Samakituk*, Locheimoi and Srumben) • Proper maintenance of roads • Construction of more roads (Simbol-Kawaipel, Amolem-Lotongot, Chemuro- Akulo, Chepseru-Arur) • All weather roads to be maintained • Construction of culvert along all roads • Support from government • Connecting electricity to school/dispensaries, trading centres	• Construction of bridges (*Samakituk and Akiriamet, Locheimoi and Srumben*) • Proper survey • Connecting electricity to school/dispensaries and trading centres

3.2.7 Security

SECTOR	**CHALLENGES**	**HOW THE ISSUES CAN BE ADDRESSED**	**PRIORITIES**
Insecurity (*Pokot and Turkana*)	• No clear Boundary • Shortages of water • inadequate of pasture • Loss of livestock/life • High poverty levels • Ignorance/illiteracy • Poor road and communication network • Inaccessibility • Misinformation from leaders	• Boundary conflict to be addressed • Income generating activities (IGA) • Food security • Fair distribution of resources • More security officers, and NPR • Installation of security lights • provision of communication network; Safaricom and Airtel • formation of group ranches to control grazing	• Peace building initiatives • Civic education program • Proper boundary demarcation • More security officers, and NPR • Income generating activities

3.2.8 Environmental conservation

`SECTOR	CHALLENGES	HOW THE ISSUES CAN BE ADDRESSED	PRIORITIES
Environment	Soil erosion	Promoting soil conservation measures	Environmental civic education
	Charcoal burning	Enforcing the law and	Establish tree

		promoting diversified economic livelihoods	nurseries, plant trees along river banks, masol hills and school compounds
	Overgrazing	Promoting enclosed pasture farming and introduction of improved livestock breeds	Promote soil conservation methods

4.0 PROJECTS

4.1 Development Project Currently Being Undertaken in Masol Ward

- ***Schools constructions***; Lokarkar primary 3 classes and dormitory, Simbol primary one class
- Roads i.e. at Nyangaita to Chirkil road, Takaiywa-Amolem road
- Bore holes; Chepurkut, Kaisa, Nyangaita and others
- Construction of dams
- Dispensary; Nyangaita,
- Water; Lomut- Nyangaita piped water,
- Pasture: Kokwokochiy
- Bee keeping

4.2 Development projects done in Masol Ward that did not succeed and Reasons

S/N	DEVELOPMENT PROJECT	REASONS FOR FAILURE
1	Lomut-Nyangaita piped water	Sub-standard work
2	Kalas bore hole	Poor siting –hydrological engineering survey was not done
3	Kokwokochigh bore hole	Poor siting - hydrological engineering survey was not done

4	Srumben ECD	Insufficient funding
5	Chepkokoch ECD-	Insufficient funding
6	Simbol dispensary	Insufficient funding
7	Bee keeping	Lack of technical education awareness and support
8	Simbol church	Insufficient funding
9	Kokwokochiy farmers association (pasture)	Insufficient funding
10	Pelpel bore hole	Poor siting - hydrological engineering survey was not done
11	Chischis bridge	Destroyed by floods
12	Tikit dispensary	Ownership Row (conflict of interest)
13	Amuto bore hole	Poor siting - hydrological engineering survey was not done
14	Kokwokochiy shallow well	Poor siting
15	Kachanguya shallow well	Poor siting
16	Kokocha shallow well	Mismanagement
17	Takaiywa dispensary-	Mismanagement
18	Chepaiywat bore hole	Poor management
19	Simbol ECD	Insufficient funding

4.3 Completed Development Activities Done in Masol Ward

- Dispensary at Nyangaita
- Borehole at Nyangaita and Cheprugut
- Cheptamas bore hole
- Kaisa borehole
- Amoler ECD school
- Srumben primary school

- Dams; Rorok, Cheptamas, Kokwokochiy, Nyangaita, Cheso,Nanguronyang, Kotulpogh, Ketiyam
- Simbol ECD
- Samakituk drift
- Construction of cattle dips by ADP at Simbol

5.0 Strategic Approach to Moving Forward

The critical importance is the transition of this community to sustainable pattern and practices of agricultural production, food production, skills training, capacity building and extension services. Access to water, health care, education, infrastructure, micro credit for farming and non-farming activities should be guaranteed. These are ambitious objectives that can be accomplished only through partnerships among all stakeholders.

Community ownership and empowerment should be encouraged. The best expert on matters concerning people is the people themselves. They know their situation better than any outsider. Local knowledge and skills are assets that an outsider cannot afford to ignore. Local people are the main role players and outsiders only come to give support. People must have an opportunity and power to steer up their own development.

5.1 Action Plan

Problem	**Strategy/Objective**	**Interventions/Project**	**Interventions by Masol integrated project**
Water Scarcity	Reduced water scarcity & improved access to clean safe water for domestic use Adequate and sufficient water for livestock and	Drilling of boreholes Construction of water dams, sand pans Installation of piped water Treatment of existing water supplies Capacity building on	Capacity building on environmental conservation and climate change adaptation Community tree nurseries around developed water points (10) and schools Support Drilling of

Problem	Strategy/Objective	Interventions/Project	Interventions by Masol integrated project
	agriculture	environmental conservation and climate change adaptation Community tree nurseries around developed water points and schools	boreholes (10) Support construction of water dams, sand pans (10)
Markets	Improve market development , regulations and stabilization	Opening of more open air markets	Construct livestock sale yards Improve open air markets
Insecurity	Improve security at the borders	Sensitizing the public on security through civic education and barazas	Support peace building initiatives within and cross border with Turkana County Establish more police post along the border Open up more security roads along the border Establish wildlife conservancy as a buffer zone between Pokot and Turkana
Education	Improve school attendance and	Posting of more teachers Construction of more	Sensitive the community on importance of education

Problem	Strategy/Objective	Interventions/Project	Interventions by Masol integrated project
	retention Reduce illiteracy levels	schools and introducing school feeding program Provision of bursaries and fee subsidies Sensitive the community on importance of education and effects of FGM/early marriages Establish Adult Learning Centers (Kumbaro)	and effects of FGM/early marriages Construction of schools (5) and school feeding program support for 10 years Number (8) Learning Centers
Livestock diseases	Improve livestock development Reduce livestock loss through deaths	Construction of cattle dips Provision of veterinary services	Support Vaccination programme to livestock diseases by purchasing drugs
Food insecurity & Malnutrition	Enhance food security Reduce nutritional related mortality	Strengthen drought management and mitigation systems Maintenance of strategic food reserves	Support the design and development of two irrigation scheme. Training on nutrition Support provision of nutritional supplements program to malnourished children and mothers

Problem	Strategy/Objective	Interventions/Project	Interventions by Masol integrated project
Health &Sanitation	Reduce water borne and other communicable diseases	Improve the existing more health centers to be fully operational e.g Nyangaita, Takaiywa, Simbol and Kaitapos Posting of more health workers and establishing more community health units (CHWs) Promote latrine use through community sensitization	Strengthen HMS to integrate Health services Promote use pit latrines through community sensitization Support nutrition supplements stocks & distribution
Road infrastructure	Improve road accessibility	Maintaining and opening up new roads	Support opening up of new roads
Climate Change adaptation & Mitigation	Reduce climate change effects and build community resilience	Water dams, water pans, pasture improvement, tree planting, creating awareness on climate changes and strengthening early warning systems	Tree nurseries Capacity development to build resilience and mitigate climate change
Women and youth	Reduce gender inequality	All development programmes initiated to	All projects initiated to integrate gender equity

Problem	Strategy/Objective	Interventions/Project	Interventions by Masol integrated project
empowerment	Increase women and youth involvement in development programmes.	have gender Concerns	
Monitoring and evaluation	Strengthen monitoring and evaluation of ongoing projects	Ensure quarterly progress reports of projects	All projects should have indicative budget on monitoring and evaluation Integrate issues of social intelligence reporting (SIR)
Culture	To preserve cultural heritage	Construct cultural center Strengthen yearly Masol cultural Night event	Construct cultural center at Nyangaita

The needs assessment determined that:

- There is only one dispensary with no maternity services in the entire ward
- There are high cases of malnutrition observed during public forum participation; urgent intervention is needed and malnutrition survey needs to be conducted in the ward.
- There exists no secondary school in the entire ward
- There is no piped water in the entire ward
- No electricity connection in the entire ward
- No police post in the ward
- Poor road infrastructure especially at Locheimoi, Srumben and Kachanguya which becomes impassible during rainy season, that needs urgent construction of drifts and bridges
- There is weak monitoring and evaluation of projects implemented in the ward leading to unsuccessful projects
- Lack of community ownership in the initiated projects

5.2 Conclusion

The assessment that took two days in Nyangaita and Tikit was participatory and all inclusive. The cooperation of the Masol community with the County government and other stakeholders ensured a smooth and productive assessment. The Masol community pledged full support and participation in the development programmes initiated to ensure community transformation is achieved through the planned projects. Above all, Community members registered their appreciation for the County government through the ministry of Finance and Economic planning for spearheading the project.

5.3 Recommendation

Following massive socio-economic challenges faced by Masol ward; the area is marginalized and underdeveloped, the rural area has been neglected for development for a long time, it faces frequent drought with frequent food shortages, cattle rustling conflicts and cute Water shortage. Due to frequent hunger and lack of clean drinking water the malnutrition rates are rising among children and common waterborne disease suffered by the people. Through the consultative meetings conducted, the following recommendations were made:

A. Establish Masol Integrated Project (MIP) at Srumben; with the following projects;

i. *Construct and equip one primary and secondary school*

ii. *Construct and equip one Modern health Centre with full maternity wing*

iii. *Provide clean piped drinking water*

iv. *Promote pasture enclosure*

v. *Establish livestock public Auction market*

vi. *Capacity building of the community*

Carry out training empowerment on Nutrition, Social Intelligence reporting (SIR), Environmental conservation, Anti-FGM, Peace building, Livestock management, and Sanitation and HIV AIDs awareness.

The Project document for Masol Integrated Project will provide clear various interventions that need multispectral approach by county government, National government and non-governmental organisations.

B. **Srumben is centrally placed place in Masol ward to serve the entire ward.**

ANNEXES

Annexes 1: Weather Pattern for Masol Ward

MONTHS	PATTERN OF ACTIVITIES
January to March	• Dry season • Migration of livestock • Less pasture • Low school enrolments • Selling livestock for food and fees • Women left at home • High food insecurity • Poor market for livestock
April	• Little rainfall • Diseases attacks both livestock and people • Hunger increased • Ploughing of farms started
May, June and July	• Livestock return • Plenty pasture • Plenty milk • Ceremonies i.e. sapana, parpara • Mosquitoes and tick attack rises • Circumcision of girls and boys starts • Ploughing and planting continues • Weeding • Unclean water
August, September and October	• Ceremonies e.g. sapana, lapaan, parpara, kipuno, marriages • Harvesting

November and December	• Dry season • Migration of animals • Little pasture • Rivers dry up • Little water for drinking and farming

ANNEX 2: Resource Maps

- Honey
- Livestock e.g. cows, goats, sheep, camels, chickens donkeys among others
- Building stones
- Aloe Vera
- Pasture
- Gold prospect in Chepurukut, Kaparot, Kakorostin among others
- Plenty of construction Sand
- Natural Trees
- Wildlife
- Seasonal Rivers

Annex 3: Masol Population (2009 Census)

Location	Sub-location	Male	Female	Total	Households	Area in sq km	Density
